Re: Request for Permission to Advertise for Bids for  
2017 Street Rehabilitation – Contract III

---

### Information

I am requesting your permission to publish the Advertisement for Bid for 2017 Street Rehabilitation – Contract III. This project will be a concrete project to perform a number of concrete repairs. ADA ramp upgrades will be done in both the Meadows subdivision as well as Deer Path subdivision. In addition, sidewalk replacement will be done at few locations on Clinton Street.

Tentatively, a bid date is set for September 12, 2017. We would anticipate approximately eight weeks of work to complete the project.

In advance, I greatly appreciate your consideration of this request.
