NOBLESVILLE ECONOMIC DEVELOPMENT DEPARTMENT
INTEROFFICE MEMORANDUM

TO: BOARD OF PUBLIC WORKS AND SAFETY
FROM: AARON HEAD, ECONOMIC DEVELOPMENT SPECIALIST
SUBJECT: FAÇADE IMPROVEMENT GRANT APPLICATION APPROVAL
DATE: MAY 29, 2018

Attached is the Façade Improvement Grant Application submitted by Shannon Loomis for the property located at **818 Logan Street** (formerly Deering Cleaners) as reviewed by the City of Noblesville's Façade Grant Review Committee on May 7, 2018 and approved on May 23, 2018.

The total façade project cost is \$41,427.93 with a grant of \$20,713.97. There is also an Architectural Design Assistance Grant of \$500 as part of this project, for a total of \$21,213.97. This grant is for labor and materials including but not limited to removal of wooden awning, removal and replacement of windows and doors, scraping old paint and painting of façade, refurbishment of decorative iron columns, tuckpoint of second floor masonry, new storefront and new signage area above storefront.

Pending your approval the property owners will be contacted and work can begin. The applicant is aware of the process and requirement of Board of Works approval for any parking space or sidewalk closures during the work associated with façade improvements. All of the façade improvements must be started within 60 days and be completed within 6-12 months of approval. The applicant will be provided with and be required to display a sign stating that the project is partially funded by a grant from the City of Noblesville's Façade Improvement Grant Program. This sign shall be displayed in a prominent location on or near the front façade of the project building during the duration of construction and for three months after project completion.

After completion all façade improvements must be inspected by the Program Administrator and certified building inspectors to verify work has been completed according to the Façade Improvement Agreement. "After" photos and paid invoices itemizing all eligible costs will be submitted to the Economic Development Department for verification. After all work has been completed and verified, funds will be disbursed.

A full version of the application is available by request in the Economic Development Department.

If you have any questions prior to the meeting on the 29th, please feel free to contact me at 317-776-6345 or at ahead@noblesville.in.us.

Project
818 Logan Facade Remo...

Description

Framing - frame temporary wall behind existing facade. Cover in plywood.

Close sidewalk and set up scaffolding

Demo - remove existing facade material (awning roof, siding, aluminum storefront). Scrape and power wash brick on second floor. Brush clean and scrape iron columns. Price includes lead paint abatement by certified contractor. 3 colors.

Framing - Frame down for signage area to span between iron columns. Frame post between doors and windows. Frame partial height wall under windows. Install temporary steel door. Cover in plywood.

Electrical - Rough in for 4 new electrical boxes for fixtures on exterior of new facade.

Tuckpoint second floor masonry. Exact scope unknown at time of estimate as existing brick is covered with paint. \$2,500 included as an allowance.

Remove scaffolding and reopen sidewalk. Estimate time of closure for above work, 7-10 days

Storefront material - install aluminum tubing and glass storefront per drawings. Install cladding over signage area. Transition between signage area and fascia in front of existing steel structural beam TBD - scope unknown until after demo.

Install new storefront door (with panic bar) to stair going to second floor. Rebuild stair tread and riser that door sits on. Cover threshold portion of tread and riser with aluminum wrap.

Storefront Specs: center glazed, thermally broken, aluminum framing. Standard paint finish. Clear LoE glass. Doors are narrow stile 3070 per leaf. Rim panic at stairs and standard locking at double doors.

NOTE : Material covering signage area may change to be fiber cement board if aluminum covering cannot be manufactured to this size.

Windows - remove and replace 3 windows on second floor. New units to be clad, double hung, Windsor Pinnacle Series, Lo E glass, interior primed, standard color. Price assumes framing around existing openings is in good condition.

Trim - exterior trim per drawing. Flat recessed panels, window trim, misc trim around doors and columns and signage area. Exact scope of trim required on signage area / face of steel beam unknown at time of estimate. Allowance provided. Boral trim proposed.

Paint - prep and paint second floor masonry. Prep and paint steel columns. Pain new flat recessed panels, trim and posts.

Remove and haul away all material - to offsite dumpster

Permit fees for encroachment (closing sidewalk)

Design time: time to complete all measurements and meetings with customer, complete all drawings for elevations and details required for permitting; complete all revisions to plans and estimates as requested by customer; assist with selection of all products and finishes; ordering and scheduling of all products related to fixtures and finishes; meetings with subs on site to determine scope of work. - ALLOWANCE \$576.00

The first estimate is provided at no charge. However, upon verbal request by the customer to proceed with estimate revisions or drawings, the customer agrees to pay MacInnis Construction Inc. for the estimate and / or drawing hours accumulated from the date of request forward. Hours will be billed at a rate of \$40 per hour.

Total \$41,427.93

Re: New Storefront Entrance and Finishes

Hearn Construction Inc. hereby proposes to furnish materials & labor to demolish existing storefront to existing structural steel and reconstruct new storefront façade at the above listed address as listed in the scope of work below.

Scope of Work

Site Preparation Mobilization & Demolition

- Provide and erect safe-way pass through scaffold over entire span of work space area.
- Cause way blockade for work being done in sidewalk areas.
- All overhead work to be done with articulating boom with boom being left on site during construction timeframe.
- Onsite dumpster location to be coordinated with the owner and city requirements.
- Exterior overhang to be removed in its entirety to existing steel beam structure and under-lined framing.

Note: All existing brick under overhang to remain intact unless it is unsafe sub-straight for second floor finish.

- Existing storefront windows, window seat, framing and doors to be removed in their entirety.
- Temporary wall to be erected for lower security until storefront wall and window system is installed.
- Upper 3 windows to be removed in their entirety and opening prepped for new windows.
- All brick and low lines on face of existing second story to be cleaned and prepped for new walls and storefront paint and trim facings.

Construction Framing and Exterior Finishes

- Exterior wall to be erected on existing concrete for framing from each side of detailed dental trims to underneath existing structural steel.
- Walls to be erected with 6" 18-gauge CSJ metal studs and extended slotted track for building expansion. Studs to be space with a 16" on center spacing and mechanical fastened, with track being shot into both the upper structural steel and concrete flooring below with Hilti line shots respectively.
- Walls to be framed with widened spacing between the window and lower detail elevation as shown in the attached drawing. All storefront window and doors to be framed with fire treated block for structural strength and hardware attachments.
- Lower area of wall to receive 5/8" plywood sheeting with moisture barrier mechanically attached with precepts and clips attached to new constructed wall for brick veneer installation.

The bitterness of poor quality outlast the sweetness of low price

(765) 452-2669
Fax: (765) 452-0561

Construction Framing and Exterior Finishes (continued)

- Dens glass to be installed on the remaining opened framed areas on the exterior wall, window returns and to the existing second story brick for weatherproofing and thermal protection
- Seal tec. System to be installed over dens glass and prepped with weeping under system in prep for EIFS system.
- Detailed Foam to be installed over storefront bulkhead area EIF's to be installed per owner's design and color selection

Note: A cost allowance of \$4,865.00 is included for a double dental detail with smooth face surface with crown placed on top of finished EIF's area as shown in detail.

- All upper brick to be cleaned and needed joints to be struck and prepped for paint.
- Second Story brick to be painted with elastomeric paint and two colors are quoted in the proposal. Colors to be determined by owner.
- Under storefront windows to be bricked with a struck joint. Style and color to be determined by owner.

Note: An allowance of \$7.28 per sq. ft. is included in the proposed bid for brick material.

- South wall to receive new painted storefront along the entire storefront façade of the building with a double entrance with 6'0 x 7'0 wood double door.
- Storefronts to have wide frame pattern to give original historical look and no maintenance on newly installed windows.
- Doors to have closure and interior panic bar and all glass to be 1" insulated Low-E glass.

Note: An allowance of \$12,980.00 is included in the proposed bid for storefront window system.

- Apartment 3 windows to be replaced with storefront operated windows with grain texture and insulated glass

Interior Finishes

- Interior side of newly constructed wall to be furred out even with existing structure columns.
- Exterior wall to receive R-23 unfaced batt insulation.
- Storefront interior wall to receive 5/8" drywall, taped and coated with a smooth finish to receive paint.
- Interior wall to receive seal/primer and two coats of paint color to be determined by owner.
- Supply feed and install (1) new direct wire lighting surface mounted box for power for exterior future sign.
- Jobsite to be cleaned up daily before leaving.
- All materials and debris to be removed upon completion of work.

Proposed Total Cost of Bid...\$68,745.00

Special Construction City Requirements for Historical if Required are Excluded.

The bitterness of poor quality outlast the sweetness of low price
